COMPANY PROFILE

Northern Insecticides Pvt. Ltd. a manufacturing company specializing in the development and supply high quality products.

Our vision is build on our history of product excellence by adhering to the following principles.

- To exceed our customers expectations in quality, delivery and cost through continuous improvement and customer interaction.
- To provide the highest quality product possible through our highly skilled and dedicated employees and continued in manufacturing processes.
- To provide insecticides, herbicides, fungicides, Plant growth regulators and fertilizers that are both affordable and effective. We are committed to effective utilization of resources and innovative initiatives for the well-being of the farming community.
- To maintain a superior level of integrity in interactions with business partners and associates.

Our Vision: To lead the market with product excellence and supporting the end use with cost effective and innovative products and user with cost effective and innovative products and practices for rapid and high performance.

Our Values: Most important business theory is customer satisfaction. With deep appreciation towards our customers, we will strive to build a reliable and trust worthy partnership with them, behind a mind that all businesses fail to exist without customers

CLAIMER

It is about joy and good health. Teaching farmers to produce and save their own crop is an important component to bring delight in their lives. ... Emamectin Benzoate 5 SG is a new insecticide that provides outstanding control of targeted insects across multiple crops.

Packing: 100 gms, 250 gms, 500gms, 1 kg. (Jar.)

NOMISTAR Top

This fungicide is recommended for the control of the following diseases: chilli (anthracnose and powdery mildew @ 0.03% a.i. or 0.1% formulation. phi= 5 days); tomato (early blight and late blight @ 0.03% a.i. or 0.1% formulation, phi= 5 days); paddy (blast & sheath blight @ 0.03% a.i. or 0.1% formulation, phi= 31 days); maize (blight & downy mildew @ 0.03% a.i. or 0.1% formulation, phi= 26 days); wheat (rust & powdery mildew @ 0.03% a.i. or 0.1% formulation, phi= 35days).

Packing: 1 Litre

NOR Sulfo

SULFOSULFURON 75%WG is a selective early post emergence herbicide used for effective control of broad leaves weeds, and grasses viz, Phalaris minor, Chenopodium album, Melilotus alba of Wheat crop. It should be used in accordance with climatic conditions and approval of local authorities.

Packing: 13.5 + 500ml

NOR-TEBU EC

Tebuconazole a systemic triazole fungicide. Triazoles are the leading chemical class of fungicides worldwide. Folicur offers an effective and reliable solution against a wide spectrum of diseases in many crops by protective, curative and eradivative action. Application of Folicur results in greening effect on the crop foliage

Packing: 250 ml, 500ml, 1 Ltr.

NOR-4D

It is a post-emergence herbicide for the control of annual and perennial broadleaf weeds in wide range of crops. Apart from broad leaf weeds, these also effectively control the Cyperus sp. It contains amine salt of 2, 4 - D. It belongs to the phenoxy-carboxylic chemical.

Packing: 1 Litre

TEBU-DS

Tebuconazole 2 DS (2 % w/w). Raxil zoomen... Siprex is a systemic seed dressing fungicide which controls seed borne diseases in wheat and groundnut.

Packing: 40 gm, 100gm

NOR-MET

Smile Grip is a residual sulfonylurea compound used as a selective pre- and postemergence herbicide for broadleaf weeds and some annual grasses. It is a systemic compound with foliar and soil activity, and it works rapidly after it is taken up by the plant.

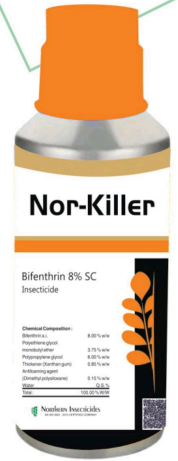

Packing: 8gm+200ml

NOR-KILLER

BIFENTHRIN 8 SC is for the control of a wide range of insect pests, like Caterpillars, Aphids, Leafminers, White Fly, Thrips, and Mites on vegetables, Rose and Ornamentals, and for Dalo beetles.

Packing: 250ml, 500ml & 1 Ltr.

NOR-Clodi

It is a selective systemic post emergence herbicide, used for the control of grassy weeds in cereals mainly wheat. It belongs to aryloxyphenoxy propionate class of herbicide, acts by inhibition of acetyl COA carboxylase.

Packing: 8x160 g.

NOR-Propi

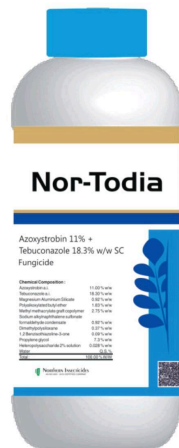

It is a protectant and curative fungicide to be used as prophylactic at an early stage of fungal disease development. Nor Propi belongs to the triazole group of fungicides. Nor Propi is recommended on several crops like Groundnut, Paddy, Wheat, and Soybean on Rust bunt, Sheath blight, and Leaf spot disease.

NOR-Todia

It is a recommended on Paddy for Sheath blight and Chilli for Powdery mildew, Root rot and Die back however due to broad spectrum activity it can control many fungal diseases affecting various crop. Nor-Todia is combination fungicide from Strobilurin and Triazole group of chemistry.

Packing: 500ml & 1 Ltr.

NOMichi

Nomichi (buprofezin 22% + fipronil 3% SC) pest Killer/Insect Killer [Thrips, mealy Bug, White Fly, aphids, jassids] for All Indoor Outdoor Plants and All Vegetable, Agriculture Crops 500ml.

Packing: 500ml & 1 Ltr.

NOR-CHLORO

It is useful against Stem borer, Green Leaf Hopper, Brown Plant Hopper, Gall midge, and Grass Hopper in Paddy crop. It is very useful against termites infestation in crops as well as buildings, woodwork, and furniture, etc.

Packing: 500ml & 1 Ltr.

NOR-KILLER

It is recommended on Bollworm, Sucking pest and White fly in Cotton, Leaf folder, Green leaf hopper & Stem borer in Rice and Termite in Sugarcane. TopStar has strong contact and stomach action. TopStar has quick knock-down action and provides longer persistence period of control against target insect pest.

Packing: 500ml & 1 Ltr.

NOR-CHLORO CS

Chlorpyrifos (CPS), also known as Chlorpyrifos ethyl, is an organophosphate pesticide that has been used on crops, animals, and buildings, and in other settings, to kill several pests, including insects and worms.

Packing: 500ml & 1 Ltr.

WELL-TARA

It helps in controlling Stem borer, gall midge, leaf folder, brown plant hopper, White Blacked Plant hopper (WBPH), Green Leaf hopper (GLH), Thrips, etc. in rice. It is also very effective in controlling Aphids, Jassids, Thrips & White Flies in cotton.

Packing: 100gm, 250gm, 500gm & 1 Kg.

NOR-BUPRO

Insecticide used for control of selected insect pests such as brown plant hopper on paddy and aphid, leaf hopper and whitefly on vegetable crops. Also act as an insect growth regulator.

Packing : 500ml & 1 Ltr.

WELLTARA FS

It provides control of a wide range of early season sucking and chewing, leaf-feeding and soil-dwelling insect pests, such as aphids, wireworms, flea beetles, and leaf miners. It is used to treat the seeds of corn, cotton, sugar beets, oil seed rape, canola, wheat, barley, soybeans, sorghum and other field crops.

Packing: 500ml & 1 Ltr.

NON MONO

Use to control cotton for Bollworms, Bollweevil, Jassids, White Fly, Thrips, Mites. It can also be used on fruit and vegetables on the control of Jassids, Hoppers Borers. Dosage : 400 - 500 ml per Acre.

Packing: 500ml & 1 Ltr.

NOR-LAMBDA

A broad spectrum synthetic pyrethroid insecticide for the control of biting, chewing and sucking insect pests.

Packing: 500ml & 1 Ltr.

NOR-FATAL

Dichlorvos is effective against mushroom flies, aphids, spider mites, caterpillars, thrips, and whiteflies in greenhouses and in outdoor crops. It is also used in the milling and grain handling industries and to treat a variety of parasitic worm infections in animals and humans.

Packing: 500ml & 1 Ltr.

NOR-LAMDA

It is a new generation synthetic pyrethroid insecticide which has stomach and contact action on insect pests. It is used for control of wide range of pests in variety of crops. It has repellent properties giving rapid knockdown and long residual activity.

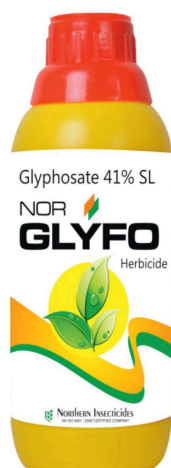

Packing: 500ml & 1 Ltr.

NOR Glyfo

It is a systemic herbicide, kills the weeds by inhibiting the EPSPS synthesis in weed plant. Being a non-selective herbicide, it effectively kills all types of weeds. It is widely used in non-crop areas, open fields, bunds and water channels. It is also used in tea crop to control various weeds.

Packing: 500ml & 1 Ltr.

NOMICHI

Validamycin 3% L is an antibiotic fungicide which controls Sheath blight disease of Rice very effectively. It acts on hyphae and destroys the fungus by its contact action and controls the spread of diseases.

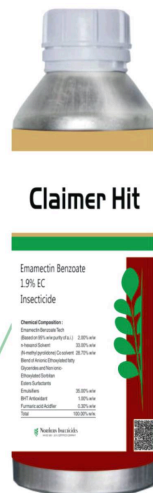

Packing: 500ml & 1 Ltr.

CHAIMER Hit

Emamectin benzoate 1.9% E.C is a highly potent insecticide cum acaricide. Even though Emamectin benzoate 1.9% E.C displays a broad spectrum pest control action, it is an eco-friendly insecticide that does not cause pollution.

Packing: 100ml, 250 ml & 500ml & 1 Ltr.

NOR PENDA

Nor Penda (Pendimethalin 30% EC) Pendimethalin is an herbicide of the dinitroaniline class used in pre emergence and post emergence applications to control annual grasses and certain broadleaf weeds. It inhibits cell division and cell elongation.

Packing: 500ml & 1 Ltr.

NOR-PERTILA EW

It is a broad spectrum selective pre-emergence to early post emergence rice herbicide. It exhibits highly efficient control of a variety of weeds like annual grasses, sedges and broad leaved weeds. It controls weeds by inhibiting its growth and reducing the cell division.

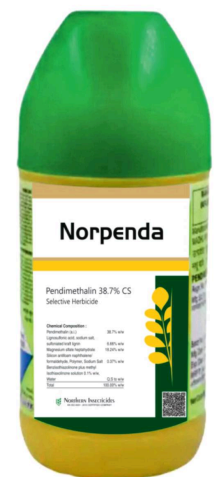

Packing: 700ml & 3 Ltr.

NORPENDA

Norpenda belongs to Dinitroaniline chemical group. Norpenda is a broad spectrum, selective pre-emergent and pre-plant incorporation herbicide recommended in soyabean, Onion, Chilli and Cotton crops for effective control of annual grasses, sedges and broad leaved weeds.

Packing: 500ml & 1 Ltr.

NOOR PRITILA

Pretilachlor 50% EC is a pre-emergency herbicide for transplanted rice. It is applied before emergency of weeds, within 0-4 days of transplanting. It controls almost all the weeds (annual grasses, Sedges and broad-leaved weeds) in rice. It is very economical with its broad-spectrum activity and low use rate.

Packing : 500ml & 1 Ltr.

NOR-PROPI

It is a protectant and curative fungicide to be used as prophylactic at an early stage of fungal disease development. Nor-Propi belongs to the triazole group of fungicides. Nor-Propi is recommended on several crops like Groundnut, Paddy, Wheat, and Soybean on Rust bunt, Sheath blight, and Leaf spot disease.

Packing: 500ml & 1 Ltr.

NORIMIDA

Imidacloprid 17.8% SL is a systemic insecticides of Neonicotinide group which control the sucking insects and termites very effectively. It is an antagonist by binding to postsynaptic nicotinic receptors in the insect central nervous system.
Packing: 500ml & 1 Ltr.

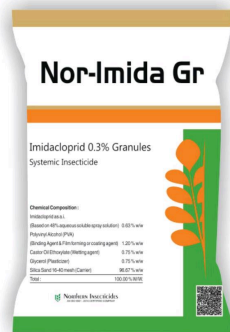

NORTAP 4G

It is effective to control biting, chewing and sucking types of insect pests. It is compatible with other commonly used insecticides and fungicides. Nortap 4G also controls larvae which are resistance to conventional insecticides.

NOR-IMIDA GR

It is a systemic insecticide used for control of sucking insects, including rice, leaf and plant hoppers, aphids, thrips and whiteflies. It is effective against soil insects, termites and some species of biting insects, such as rice water weevil and Colorado beetle.
Packing: 1 Kg

TEBUSUL

Tebuconazole 10% + Sulphur 65 % WG. It is an effective fungicide with protective, creative and eradivative action. It controls powdery mildew, fruit rot diseases of Chilli and leaf spot, pod blight disease of Soybean.

Packing: 250gm, 500gm & 1 kg

EXTRA Gold

Crop: Rice, Cotton, Cereals, Maize, Sugar Beet, Potatos, Vegetables, Citrus Fruits, Pome Fruit & Stone fruit (Paddy)
Pest: Aphid, Thrips, Lepidopterous larvae, sawflies, leaf hopper, Cut worms, white flies, termite.
Packing: 1 Kg.

STAR KING

It is used for control of Leaf hopper, Aphid, Thrips & Bollworms on cotton crop.

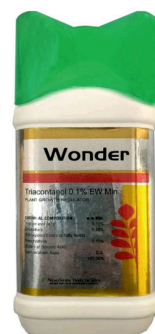

Packing: 250gm, 500gm & 1 kg

WONDER

Used To Increase The Yield Of Crops Like Cotton, Chillies, Tomoto, Rise & Groundnut etc. It helps in enlarging the fruit size.

Packing: 500ml & 1 Ltr.

NOR-CHLORO GR

Chlorpyrifos is used to control many different kinds of pests, including termites, mosquitoes, and roundworms.

Packing: 1 kg

NOR-Imida WG

It is used to control of sucking insects, including Leaf/Plant hoppers, aphids, Thrips and White flies. It is also effective against soil insects, termites & some species of biting insects.

Packing: 70ml & 150 ml.

EXTRA Gold

Crop: Rice, Cotton, Cereals, Maize, Sugar Beet, Potatos, Vegetables, Citrus Fruits, Pome Fruit & Stone fruit (Paddy)
Pest: Aphid, Thrips, Lepidopterous larvae, sawflies, leaf hopper, Cut worms, white flies, termite.

Packing: 1 Kg

NOR BUTA

It is use to control annual grass as well as broad leaf weeds. It is absorbed principally through the roots & foliage. It inhibits photosynthesis and interferes with other enzymatic activities. It is used in combination with other herbicides.

Packing: 500ml & 1 Ltr.

NOR-Thipoh

Thiophanate-methyl 70% WP is a curative, preventive and systemic broad-spectrum fungicide, used for plant diseases on various crops. It can be mixed with many kinds of fungicide, pesticide and herbicide as well as in textile papermaking and leathers..

Packing: 1 Kg.

NOR-Fipro

It acts as an insecticide with contact and stomach action. It disrupts the insect's central nervous system by blocking the passage of chloride ions through the GABA receptor, an inhibitor of the central nervous system. It also acts as Plant Growth Regulator, which enhances the root growth and results in higher yields.

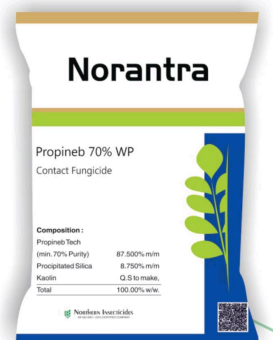

Packing : 1kg

NORANTRA

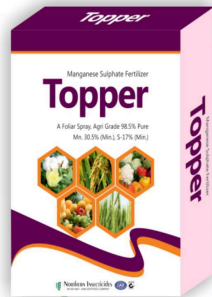

Propineb 70% WP Antracol contains Propineb, a contact fungicide with broad-spectrum activity against various diseases of rice, chili, grapes, potato, and other vegetables and fruits. Propineb is a polymeric zinc-containing dithiocarbamate.

Packing: 1Kg

Topper

Granular Manganese Sulfate is a granulated manganese fertiliser for dry application to the soil. It is also used as an ingredient in blended fertilisers. Granular Manganese Sulfate is primarily intended for use in South Australia in planting fertilisers in crops grown on calcareous soils. Packing: 500gm & 1 kg.

CARGILL

Zinc Sulphate, like many zinc compounds, can be used to control moss growth on roofs. Zinc Sulphate can be used to supplement zinc in the brewing process. Zinc sulfate helps to prevent low yields, spotted leaves, and stunted growth. It can also be used as a natural fungicide.

Packing: 1 kg

CARGIL MYCORRHIZAL

Produce more vigorous and healthy plants. Increase plant establishment and survival at seeding or transplanting. Increase yields and crop quality. Improve drought tolerance, allowing watering reduction. Enhance flowering and fruiting. Optimize fertilizers use, especially phosphorus.

CARGIL SULPHUR

Sulfur 80 WDG is a fungicide, insecticide and miticide for use on Citrus, Field, Fruit, Nut, Ornamental, Turf and Vegetable applications.

CARGIL PROM

This phosphate rich organic manure improves the physical, chemical and biological properties of the soil and increases crop production. It improves electrical conductivity of soil and enhances the activity of beneficial microorganisms in soil. It also balances the soil pH. It helps in humus formation.

CARGIL SULPHUR 90

It is an Organic Nutrient Rich Product as per Integrated Nutritional Management. Furthermore, it is a Low Input Efficiency Product to Provide Overall Health For Soil/Plants/Crops.

DOSAGE: 3Kg/ Acre (Depending Upon Crop)

USAGE: Can be used for all plants and crops

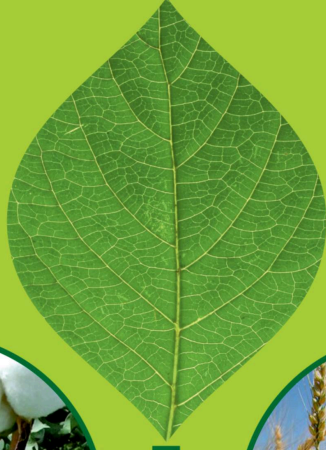

CARGIL ZSB

These bacteria improve the plant growth and development by colonizing the rhizosphere and by solubilizing complex zinc compounds into simpler ones, thus making zinc available to the plants. Zinc solubilizing microorganisms solubilize zinc through various mechanisms, one of which is acidification.
